

SmartTech AI Support Platform

Frequently Asked Questions (FAQ)

Version: 2.4

Last Updated: January 2026

About SmartTech AI

SmartTech AI Support Platform is an AI-powered customer support solution designed to help businesses provide fast, accurate, and intelligent customer service.

The platform combines Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), automation workflows, and enterprise collaboration tools into a single application.

Users can upload documents, search knowledge bases, create support tickets, manage subscriptions, and communicate with an AI assistant through a modern web interface.

Account Questions

How do I create an account?

Click Sign Up, enter your full name, email address, and password, then verify your email.

Can I change my email address?

Yes.

Open:

Settings → Profile → Email Address

Enter the new email and verify it.

I forgot my password.

Select Forgot Password on the login page.

A reset link will be sent to your registered email address.

Password reset links expire after 30 minutes.

Why can't I log in?

Possible reasons include:

- **Incorrect password**
 - **Email not verified**
 - **Account locked**
 - **Session expired**
 - **Multi-Factor Authentication required**
-

How do I enable Multi-Factor Authentication?

Navigate to:

Settings → Security → Multi-Factor Authentication

Choose one of the following methods:

- **Authenticator App**
 - **SMS Verification**
 - **Email Verification**
-

AI Assistant

What can the AI Assistant do?

The AI Assistant can:

- **Answer questions**
- **Search uploaded documents**
- **Summarize conversations**
- **Explain API documentation**

- **Generate customer replies**
 - **Suggest troubleshooting steps**
 - **Translate messages**
 - **Draft professional emails**
-

Does the AI Assistant always answer from company documents?

When relevant documents exist in the Knowledge Base, the assistant searches those documents before generating a response.

If no relevant information is found, the assistant generates an answer using its general knowledge.

Which file formats are supported?

The Knowledge Base supports:

- **PDF**
 - **DOCX**
 - **TXT**
 - **HTML**
 - **Markdown**
 - **CSV**
 - **JSON**
 - **XML**
-

How long does indexing take?

Most documents are indexed within one minute.

Large documents may require several minutes.

Support Tickets

How do I create a support ticket?

Navigate to:

Support → Create Ticket

Complete the following information:

- **Title**
- **Category**
- **Priority**
- **Description**

Click Submit.

What priorities are available?

- **Low**
 - **Medium**
 - **High**
 - **Critical**
-

Can I reopen a closed ticket?

Yes.

Open the ticket and click Reopen Ticket.

Orders

How do I track my order?

Open:

Orders → Tracking

Enter your Order ID.

The current shipping status and estimated delivery date will be displayed.

Can I cancel an order?

Orders may only be cancelled before shipment.

Once the order status changes to Shipped, cancellation is no longer available.

How long does shipping take?

Domestic shipping:

2–5 business days

International shipping:

7–14 business days

Refund Policy

Can I request a refund?

Yes.

Refund requests must be submitted within 30 days of purchase.

How long does refunds processing take?

Approved refunds are processed within five business days.

Are subscriptions refundable?

Monthly subscriptions may be refunded within seven days.

Annual subscriptions are evaluated individually.

Subscription Plans

What plans are available?

Starter

Professional

Enterprise

Which plan includes API access?

Professional and Enterprise.

Which plan includes priority support?

Professional and Enterprise.

Does Enterprise support Single Sign-On?

Yes.

Enterprise customers may enable:

-

Security

Is my data encrypted?

Yes.

All customer information is encrypted using AES-256 encryption.

Does SmartTech use HTTPS?

Yes.

Every connection uses HTTPS with TLS encryption.

How often should I change my password?

Every 180 days is recommended.

API

How do I authenticate?

Use a Bearer Token.

Example:

Authorization: Bearer YOUR_ACCESS_TOKEN

What is the API rate limit?

Starter

100 requests per minute

Professional

500 requests per minute

Enterprise

Unlimited

Which HTTP status code indicates an invalid token?

401 Unauthorized

Troubleshooting

Upload failed.

Possible causes:

- **File larger than 100 MB**
 - **Unsupported file format**
 - **Network interruption**
-

AI Assistant returns no answer.

Possible reasons:

- **Knowledge Base contains no indexed documents**
 - **AI model unavailable**
 - **Request timeout**
-

Website is slow.

Try:

- **Refresh the page**
 - **Clear browser cache**
 - **Check your internet connection**
 - **Contact support if the problem continues**
-
